10. What information do you provide to consumers on how and where to return covered electronic devices that are labeled with your name or brand label?

Consumers may find information for recycling support via ViewSonic/Green page or through our partnered recycler, 3R Network Recycler's website, <http://www.recycle4earth.com/>. Any unwanted unites can be returned to our facility or to local recycler centers. Both websites offer mail back option, email support or toll free phone number to provide recycling information to consumers.

11. How do you provide information to consumers on how and where to return covered electronic devices?

ViewSonic.com/Green page will provided details of our recycling program and our brands information. We also have mail back details available to consumers. Customer can fill out label request form for returned unit at no cost to them through both ViewSonic and our recycler, Recycle4Earth websites. ViewSonic also provide states' links in our website, direct consumers to multiple States website for recycling support from local authorizes.

TAKEBACK PROGRAM REPORT (include this information beginning with the first registration submitted after the implementation of the Takeback program)

12a. List the number of permanent collection and/or recycling locations in the state of Michigan. 1

- a(1) The number of those collection sites that are located in counties with a population of less than 20,000 people. 0

12b. The number of collection events held during previous registration year in the state of Michigan. 0

12c. List the weight of the covered electronic devices received by the Takeback program from consumers during the prior year:

1 tons thru collection locations 0 tons through collection events 0 tons through retailers 0 tons by mailback.

13. Describe the processes and methods used to recycle or reuse the covered electronic devices received from consumers:

COM2 handled all recycling. Processes include:

Once TVs and Computer Monitors are received, COM2 will record, separate and disassemble, retrieve parts and sort. The CRT from TVs and monitors will be processed by separating the front panel non-leaded glass from the lead based tube funnel. After the phosphor cleaning procedure, they separate the glass and process it to produce cleaned furnace ready glass cullet. Other parts of TV will be sorted out, some will be shredded, baled and shipped.
